The Extracellular Matrix

Human skin is composed of three major layers of tissue: the epidermis, dermis and hypodermis. The extracellular matrix (ECM), the fine mesh of microfibrils is composed of compounds such as collagen, elastin and hyaluronic acid. The ECM is present throughout both epidermis and dermis and provides tensile strength and elasticity to the skin.

Ingredients

ZINZINO | SKIN SERUM

Golden glow (beta-carotene)

Fragrance free

Free from parabens

YOUTHFUL APPEARANCE

Reduce the appearance of fine lines and wrinkles commonly associated with aging to gain a more youthful appearance.

- Copper peptide
- 1-3, 1-6 betaglucans

CHOOSE TO LOOK YOUR BEST

Enjoy vibrant and beautiful skin for life with the power of science.

- Calendula (plant-extract)
- Hyaluronic acid

TESTEMONIALS

I WILL FOREVER BE GRATEFUL

During the last 10 years I have had severe skin problems. On several occasions I have gone to dermatologists, herbalists and homeopaths that have tried to help me without success. My skin condition affected my self-esteem a lot and when my skin problems were at the peak I never went out of the house without wearing make up. In October 2016 I decided to try something new - the Zinzino Skin Serum. I apply it sparingly on my face and neck every morning and evening. After 2 months of use the results turned out fantastic. The results still remain as good and I will forever be grateful and continue to use it.

Haldora, 23 years

I AM VERY HAPPY

The Zinzino Skin Serum really works for me! I started using the serum 6 weeks ago and it has already reduced fine lines and wrinkles and I experience an improvement of the overall quality of my skin. I am very happy about the result so far.
